

Moneris® e-Select plus® Mobile App

Process payments anywhere, anytime!¹

Transform your mobile phone into a point-of-sale (POS) device and process payments whenever and wherever you are. Fast and simple, the e-Select plus® Mobile App allows you to accept payments and close sales on the spot.

Available for use on many smartphones², the e-Select plus® Mobile App features real-time authorization, emailing of receipts, and reporting to help maximize your business efficiency and cash flow.

e-Select plus® Mobile App can provide you with the following benefits:

- **Flexibility and Convenience**
 - Multiple users can download the app and process transactions at the same time
 - Moneris mobile card reader simply plugs into the audio port of your smartphone
 - Payment processing capabilities include purchase, refund, void, pre-authorization and pre-authorization completion
- **Faster and Easier Sales**
 - Capture sales on the spot for services rendered or products sold
 - Payment receipt can be emailed directly to your customer
- **Cost Savings**
 - Every time you swipe a card you may qualify for a lower rate per transaction
- **Security**
 - Card data is encrypted at the time of swipe and transmitted over SSL for extra security
 - No customers' data is retained on your mobile phone
- **Real-time Reporting**
 - Check transaction history and reports on your smartphone or online anytime
 - User based reporting allows you to monitor transactions by independent users

The Mobile App is ideal for businesses on the go, such as:

- Trade show vendors
- Contractors
- Accountants
- Electricians
- Direct sellers
- Artists
- Home repair services

Find out how the e-Select plus® Mobile App can enhance your business.
