

Moneris® e-Select plus® Vault

Reduce data security risks and offer increased customer payment convenience – with e-Select plus Vault.

Moneris' e-Select plus Vault allows you to securely register and store your customer's credit card account information on Moneris' secure servers. This reduces your investment in technology and PCI compliance efforts, while minimizing security risks.

If you require the ability to bill your customers for routine products or services whenever a payment is due, then e-Select plus Vault is the right solution for your business.

Benefits

- **Improve cash flow** – Get paid faster as once an electronic payment is authorized, the funds are transferred directly to your bank account.
- **Increase customer satisfaction** – Your customers won't have to re-enter their account information when they return to make a repeat purchase.
- **Enhanced security** – Reduce technology, infrastructure, data storage costs and security risks by storing customers' account information on Moneris' secure servers.

Vault is ideal for:

Religious and Charitable Organizations

- For regular and one-off donations

Health and Wellness

- For health club memberships and ancillary services

Government

- For tax and fee collection

Self Storage & Property Management

- For regular rental and special assessment fees

Insurance

- Personal, Auto, Travel
