

# Better service. Faster turnover.

Moneris Solutions serves up more  
payment convenience.

**Moneris**   
SOLUTIONS

# Discover a better way to accept card payments. For your customers. And for you.

The payment process is your customers' last impression of your service. With Moneris' Mobile and Long Range Mobile POS terminals, you can enjoy:

## Increased revenue at reduced cost

- Improve your wait staff's productivity and increase table turnover with debit and credit payment at the table
- Eliminate the need for pre-authorizations
- Eliminate the need for additional, costly dial-up line

## Improved service

- Enable your customers to pay with chip cards without leaving their table
- Built-in tip functionality makes payment a breeze
- The Long Range Mobile 8300 can process payments at your customer's door

## Enhanced security

- Reduce chargeback risks by accepting chip payment
- Reduce the amount of cash your delivery employees carry
- Customer never lose sight of their debit or credit card during payment process

## MONERIS MOBILE 8200

Simplify the payment process and bring it right to your customer's table – even on the patio, with the Mobile 8200, Moneris' pay-at-table solution. Eliminate the need for pre-authorization and multiple trips to the table. Tipping, authorization and a receipt can be completed in seconds. Increase your table turnover and give your customers a better dining experience.

- Chip-enabled to accept all debit and credit cards, as well as Moneris gift card and loyalty transactions
- Process transactions faster by leveraging a high-speed Internet connection
- Base station supports up to 7 wireless terminals

## MONERIS LONG RANGE MOBILE 8300

Bring the entire payment process right to your customer – wherever they are. Ideal for home delivery, Moneris' Long Range Mobile 8300 eliminates the need for manual imprinting, pre-authorizations and manual reconciliations.

- Accept any card payment, including chip cards, quickly without pre-authorizations
- Process transactions faster over wireless phone service network – anywhere<sup>1</sup>
- Specially designed with long battery life

*"The Mobile 8200 has made our lunch and dinner rushes a lot easier to handle. Bringing debit and credit right to the table has eliminated credit pre-authorizations, increased productivity and improved table turnover. Our customers love it as they never lose sight of their card and don't have to leave the table if paying by debit."*

Lucy, Owner  
Lucy's Seafood Kitchen, Mississauga, ON

## Integrate Card Processing with Leading POS systems.

Moneris can also process payment through integration with leading restaurant POS system to help improve restaurant efficiency even further. Your integrated system can:

- Assist with employee scheduling, floor management, inventory control, promotions, and ordering
- Reduce or eliminate entry errors, and simplify staff training
- Save time on reporting when orders and payments are integrated
