

What is Simplified Pricing?

Simplified pricing makes it easier to understand the costs associated with processing credit and debit card payments by clearly outlining the components that make up your processing fees. Processing fees on simplified pricing consist of: Interchange/Wholesale Discount, Network Assessment and Moneris® Transaction Fees.

What is Interchange?

Interchange is the amount that card processors, like Moneris, are required to pay credit card issuers and/or financial institutions for each credit or debit card transaction processed by its merchants. Interchange rates are set and regulated by the card brands (i.e. Visa®, Mastercard®, Discover®, UnionPay, etc.), and can vary by:

- Card type (basic, premium, corporate, etc.)
- Transaction type (chip, swipe, ecommerce, etc.)
- Business type/Merchant Category Code (MCC)

With simplified pricing, the interchange amount, as set by the card brands, is passed through by Moneris to the merchant. As a result, merchants will benefit from increased visibility and exposure to interchange rate updates periodically announced by the card brands, including reductions or special programs.

What is a Network Assessment Fee?

A Network Assessment Fee is the amount that card processors, like Moneris, are required to pay the card brands for each credit or debit card transaction processed by its merchants. Network Assessment fees are set and regulated by the card brands and can vary by:

- Region where card was issued (domestic/foreign)
- Settlement currency (CAD, US)

With simplified pricing, the Network Assessment Fee, as set by the card brands, is passed through to the merchant.

What is the Transaction Fee?

The Transaction Fee is the fee paid to Moneris for the credit and debit card transaction processing, clearing, settlement, reporting and customer service it provides your business.

How is Total Processing Cost Calculated?

Total Processing Cost (\$) (per Transaction)

Interchange/Wholesale **Discount Rate (%)**

Transaction Amount (\$)

Network Assessment Fee(s) (%)

Transaction Amount (\$)

Moneris Transaction Fee (%)

Transaction Amount (\$)

The foregoing is an overview of the simplified pricing structure that applies to the processing of credit and debit card transactions. Other fees may apply depending on the services received from Moneris. Please review your Moneris Merchant Agreement for details
